MVP SERIE A 2025/2026 – FEDERICO DIMARCO BEST OVERALL

The MVP of Serie A 2025/2026 award for **Best Overall** has been assigned to Inter player **Federico Dimarco**. The trophy will be presented during the pre-match of Bologna-Inter on the pitch of the 'Renato Dall'Ara' stadium in Bologna.

The winner have been identified taking into account the advanced analysis of Kama Sport, created from the tracking data recorded with the Hawk-Eye system. The rating system, patented in 2010 with K-Sport and scientifically validated, considers not only statistical data and technical events, but also positional data. This makes it possible to analyse crucial aspects such as movement without the ball and thus optimal movements, game choices, and the contribution to the technical and physical efficiency of the team, which allow for an objective and qualitative evaluation of the performance.

*"As another exciting Serie A Enilive season draws to a conclusion, with so much still to be decided in terms of European cup qualification and the battle to avoid relegation, we are honouring the players who have distinguished themselves most throughout the championship - said **Luigi De Siervo**, CEO of Lega Calcio Serie A -. In thanking all the players, coaching staff and clubs for this thrilling season, I would like to congratulate the season's MVPs, who, with their talent and skill, have brought joy to all the fans. In this squad, which includes three players under the age of 22, demonstrating a league capable of launching young talents, Federico Dimarco stood out, deservedly named Best Overall in this Serie A season. A player whose role is characterised by intensity and running, Dimarco excelled thanks to his technical ability, with his exceptional left foot scoring 6 goals and providing 18 assists - an all-time record in a season of Italy's top League".*
